

LEGACY PROFESSIONAL SERIES

Versa-10 Monitor Speaker

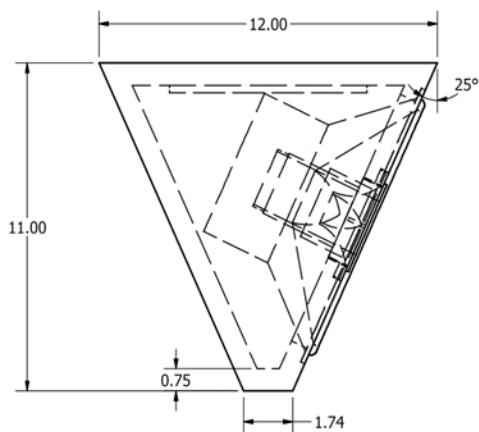

One of the most versatile loudspeakers of its kind. Versa-10 can be ceiling mounted or used as a stage floor monitor for venues ranging from clubs to sanctuaries. Its compact size and high efficiency are the result of our premium 10" woofer and Italy's finest ring radiator tweeter.

Application: Ceiling mount or floor monitor
Features: Threaded flange for post mounting
Venues: Conference rooms, sanctuaries, under balcony

Versa-10 can be post mounted and pivoted on the provided Chief® bracket from suspended ceilings. The angled enclosure provides proper orientation for upward or downward splay and minimizes microphone feedback. The Versa-10 employs rugged drivers for conference room or high-output applications.
